

# *Meursault*

## Cuvée Tête de Murger

Meursault Cuvée "Tête de Murger" comes from the marriage of two Climats: Meursault Les Casse-Têtes, located on the hillside of Meursault, and Meursault Les Murgers de Monthelie, located on the hillside of Volnay.

Grape variety: 100 % Chardonnay

Colour: White

Production surface area: 0,62 ha

Aging potential: 8 to 10 years

Service Temperature: 11 to 13°C

### Terroir:

This Meursault comes from the marriage of two Climats:

- Meursault Les Casse -Têtes situated on the classic slopes of Meursault (between Meursault and Puligny-Montrachet) facing eastwards and with little soil.
- Meursault Les Murgers de Monthelie on the Volnay slopes orientated to the west with a topsoil of 80cm of clay on a layer of volcanic rock (Volnay).

### Tasting notes:

The initial vigour and mineral sensations from the Casse-Tête plot combines well with the fullness and length in the mouth from the Les Murgers de Monthelie plot giving a harmonious wine with a prolonged finish and expressing the true nature of the land from which it originates. It is a great wine for ageing.

### Serving suggestion:

Shellfish and finer fish.
