

LA REVELÍA

2023

STORY

La Revelía represents for us the maximum expression of the Godello variety: complexity, intensity and finesse with a unique personality.

CHARACTERISTICS OF THE VINTAGE

The year was marked by an unusual rainfall pattern. 2023 began with a spring of mild temperatures and a rainy June, which encouraged good vine growth and ample water reserves in the soil for the summer, which was dry and somewhat hot. The grapes reached the ripening period with a good balance between alcohol potential and ripeness. They were harvested in good weather, which ensured their excellent health.

WINEMAKING PROCESS

Fermented at controlled temperature in stainless steel deposits with subsequent ageing on the lies in French oak barrels.

TASTING NOTES

La Revelía 2023 presents an intense straw-yellow colour with golden highlights, bright and crystalline, immediately suggesting careful winemaking and a well-judged period of ageing. On the nose, it displays notable complexity, combining fennel and refined herbal notes with a clearly defined mineral profile, alongside dried

white flowers and ripe stone fruit such as peach and apricot. In the background, subtle nuances of fine patisserie and delicate honeyed notes emerge, contributed by ageing in 500-litre French oak barrels; these elements are seamlessly integrated and never dominate the overall expression. On the palate, the wine is generous yet fluid, with an enveloping texture, precise balance and a vibrant acidity that lends freshness and tension. The finish is long and persistent, leaving an elegant mineral and fruity aftertaste.

DATA SHEET

Location: El Bierzo

Variety: 100% Godello

Ageing: French oak barrels
