

"The powerful elegance of Kilikanoon Wines is the ultimate expression of Clare Valley terroir. A symphony of diverse and unique microclimates masterfully composed, to deliver impeccable quality and style for each marque" - The Real Review.

A LUXURY WINE PRODUCER, PRAISED GLOBALLY FOR

ORCHESTRATING THE FINEST COMPOSITION OF CLARE VALLEY WINE.

CRAFTED WITH A STRONG SENSE OF PLACE AND BORN OUT OF A COMMITTED AND PASSIONATE TEAM, WE ARE DRIVEN TO CREATE A LASTING WINE LEGACY FOR OUR CUSTOMERS.

Our Winemaking Philosophy

Kilikanoon wines are characterized by their balance of power and elegance, fruitful generosity and acid structure, pure varietal expression with a distinct Clare accent.

Our objective is to build trust in the Kilikanoon brand by never allowing a Kilikanoon wine to disappoint. This is achieved through our unwavering and uncompromising commitment to quality in everything we do.

Keeping all parcels and barrels separate until blending is a key aspect to achieving regional and varietal definition in each wine. Traditional winemaking techniques and meticulous care ensure that our low yielding ancient vines are thriving in their new world environment.

The Killerman's Run range provides Kilikanoon the opportunity to blend across all of Clare Valley to produce wines of outstanding quality and value.

Our Classic Clare, Asset and Icon ranges focus on specific sub-regions and Estate Vineyards to deliver the power and elegance that Kilikanoon is known for.

Our Location

Our vineyard sites have been carefully selected from several of Clare's subappellations allowing us to showcase the nuances of the Valley throughout our entire range. With altitudes ranging from less than 300m to more than 600m above sea level.

The diurnal temperature difference between night and day, as well as the harmonious combination of geology and topography, make the Clare Valley an exceptional geographical location for producing powerful and elegant wines.

We leverage the Valley's diversity to deliver consistency of quality and style for each marque across all vintages.

The Clare Valley Difference

GEOLOGY

Elevent different soil profiles are documented in the region, from over 800 million years of activity. It is an old seabed with volcanic peaks and sedimentary valleys. The key soils are "Terra Rossa" or red clay over limestone in the South (Watervale), and slate and sandstone through the North (Polish Hill)

GEOGRAPHY

Situated 120kms North of Adelaide, the Clare Valley is actually three ridges and two valleys running North/South. Compact in size, it measures just 30kms long and 10kms wide and sits at elevations of between 200-900 meters above sea level.

CLIMATE

Considered 'continental' and 'cool', in the Clare Valley the diurnal temperature is the key. Hot days and cold nights allow the fruit a long ripening period. Relatively low rainfall helps concentrate flavours in the grapes.

The Result = Power & Elegance

Awards & Accolades - Highlights
