

Partida Pedrer 2022

This is a black *Garnatxa* wine that comes from the new plantation of the north-facing Bellvisos plot. It is a natural wine. Without any kind of additive. Pure. Pedrer captures the freshness of the shade and the warmth of the morning sun... It is a wine of generous expression.

Winemaking:

For the first time it is aged, 100%, in 220 and 300l clay jars to maintain the purity of expression. 16 months of ageing. It seems that the jars are not so porous, and the wine maintains all its initial potential. Pedrer is a natural wine, as we said, that finishes its ageing without any contamination.

On the nose it is very fruity and fresh due to the fermentation with whole grains. It seems like you are walking through a fruit garden, soft and delicate. On the palate it is long and vibrant, an explosion of fruit!!!
