

OUR HISTORY

For generations, the name Dr. Thanisch has been synonymous with Germany's finest and most luxurious white wines. Founded in the picturesque, centuries-old town of Bernkastel-Kues on the Mosel River, our family-owned estate looks back on more than 375 years of winemaking tradition. Across 16 hectares, Dr. Thanisch cultivates exceptional, steep-slope Riesling vineyards and is admired by wine experts and Riesling enthusiasts around the world for owning Germany's most prestigious vineyard: the *Berncasteler Doctor*. To this day, Dr. Thanisch ranks among the world's leading Riesling producers.

BERNCASTELER DOCTOR

A century-old tale echoes the sublimity of the Doctor wines: Struck with an incurable illness, the Elector Boemund of Trier publicly announced that anybody who delivered a cure to his disease would be rewarded with unimaginable riches. A winemaker from Bernkastel handed a cup of golden wine and a few days later, the fever ceased and Boemund recovered. Until today the only 3-hectare small highly exclusive *Berncasteler Doctor* vineyard is Germany's most expensive vineyard that regularly gives birth to the most sublime Riesling vintages in the world. To gain maturity these wines age in the famous 350 year old *Doctorcellar* that's carved into the vineyard's mountain. Loved and drank "as medicine" by the British Royal Family, by US-General Eisenhower, by the German Emperor Wilhelm II. and early Chancellor of Germany Adenauer and famous novelists and intellectuals, *Berncasteler Doctor* Rieslings remain legendary for their history, prestige, and unmistakable character.

OUR GRAND CRU COLLECTION

Classified by the oldest wine association in Germany, our *Grand Cru*- or *Große Gewächse* -GG- first class vineyards build the prestigious core of our wine portfolio. With reputation that has endured for centuries and their wines offered in different variations - from dry to semi-dry to sweet - their names resonate highly with any wine critic in the world: *Berncasteler Doctor*, *Bernkasteler Lay*, *Bernkasteler Graben* and *Bernkasteler Badstube*. Carefully hand-selected, the grapes from these steep vineyards benefit from optimal sun exposure, while the diverse slate soils give each vineyard its distinctive and unmistakable character.

THE MOSEL - TERROIR & VINIFICATION

Over millions of years, the Mosel river carved its way through mineral-rich slate mountains, creating one of the world's most unique wine-growing landscapes. The valley's heat-retaining microclimate, combined with its steep, slate-rich terroirs, provides ideal conditions for producing world-class Rieslings. Harvested by hand, rich in aroma and minerality, the grapes are gently pressed to preserve their purity. Following fermentation in stainless steel tanks, the *Grand Cru's* are given additional time to mature in oak barrels, developing greater complexity and depth. This dedication to quality is reflected year after year in outstanding ratings from the world's most respected wine critics.
