VINTAGE

The shortage of rainfall throughout the cycle and some frost in early May define a vintage of lower yields than usual, which coincided with the earliest harvest so far. The vineyards of El Rosal and Traspinedo were harvested during the second week of September, after a very dry summer, in order to preserve the freshness of the berries, in a harvest characterized by short macerations, measured extraction and precise fruit.

TASTING

Energy, vivacity, excellent fruit weight and suave tannins are combined in a well-rounded wine, fine and enveloping, with multiple layers.

AGEING AND CONSUMPTION

Mauro VS 2017 was bottled in February 2020 after 26 months in French oak barrels.
